AVANTA

AVANTA Pull Bars combine effortless operation, dependable durability, and sleek architectural styling. Their elongated vertical profile provides comfortable leverage for operating heavy commercial, industrial, and oversized residential doors with reduced effort.

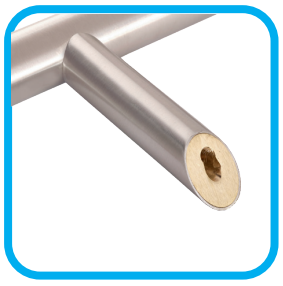

Built for frequent use, **AVANTA** Pull Bars maintain a secure and stable installation while creating a balanced, modern appearance for contemporary entry doors, glass doors, and large pivot door systems.

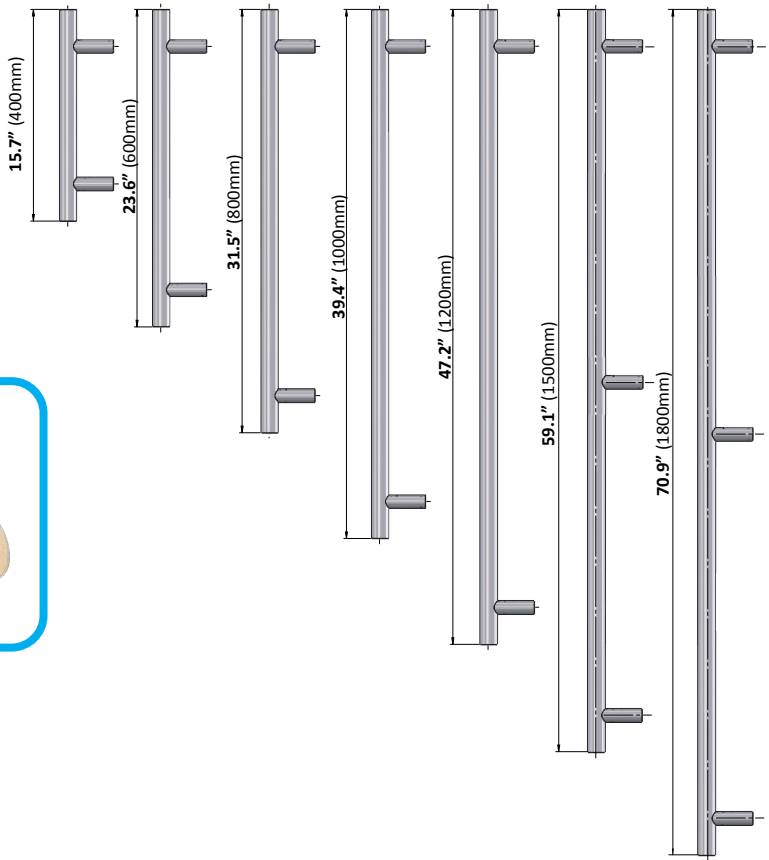

Features

- **Modern Architectural Appeal**
  Elongated vertical profile creates a sleek, balanced, and premium contemporary appearance.
- **Available in inline and cranked configurations**
  Options to suit different door profiles, mounting requirements, and architectural designs.
- **Versatile Length Range**
  Available in lengths ranging from 15.7" to 70.8" (400mm to 1800mm) to accommodate a wide variety of door sizes and provide maximum design flexibility.
- **Made from durable 316-grade stainless steel**
  Durable, long-lasting material available in several PVD finish options for enhanced corrosion resistance.

Colors & Finishes

01	Brushed Stainless Steel
03PVD	PVD* Oil Rubbed Bronze
05PVD	PVD* Black

IMPORTANT

The perception of colors by the human eye varies from one individual to another. Colors and finishes shown below are for illustrative purposes only and should be used solely for general guidance. Actual colors and finishes may vary depending on the shape of the product, its composition, and the brightness of the light to which it is exposed. Slight color or shading variations may also occur between individual units, within acceptable quality control tolerances.

Contact a Radisson Industries representative for an actual sample and stock availability. Plated decorative finishes may be subject to longer lead times, delays, and minimum order quantities due to the complex nature of the plating process.

*Physical Vapor Deposition (PVD)

Physical vapor deposition is a vacuum coating process that has a higher corrosion tolerance than electroplating and other forms of metal finishing. Because of the corrosion resistant properties, PVD coatings provide a brilliant and more durable product.
